

Aviation is evolving, and staying updated is crucial. Our 4-week Flight Dispatch & Operations Course at Indian Aviation Academy (IAA) New Delhi is designed for Cargo Operators, Business Aviation, FTOs, Airline Operations, OCC Staff, Charter Services, Corporate Aviation, and Ground Handling Teams—keeping you ahead of industry standards.

About IFOA

The International Flight Operations Academy (IFOA GmbH) is a Swiss-based aviation training and consulting company. We nurture a “think outside the box” and “work smart” culture; this is why we are stepping away from the inefficient, traditional training approach to develop and maintain a fully functioning **Competency-Based Training and Assessment (CBTA) approach**.

IFOA is proud to be the **first aviation training organization to deliver Flight Operation and Flight Dispatch courses** following the prerequisites recommended by the new ICAO Doc 10106 manual.

IFOA's aim is to educate and inspire the global next generation of talents who support shaping the future of a safer, more effective, and sustainable aviation industry.

Why Join?

- ✈ Stay updated with the **latest ICAO, EASA & DGCA standards** for global operations.
- ✈ Learn advanced **flight planning & operational strategies** to enhance **safety & operational control**.
- ✈ **Develop situational awareness, crisis management & decision-making**.
- ✈ Enhance decision-making with **real-world case studies**.
- ✈ Learn from an **experienced Master Trainer with global expertise**.
- ✈ **Efficient Crew & Aircraft Management** - learn skills to maximize efficiency and minimize downtime.
- ✈ **Optimized Flight Planning** - enhance skills in route optimization, fuel efficiency, and regulatory compliance, ensuring smooth operations.
